Sir:

This is in response to the restriction requirement mailed July 29, 2003 wherein four species of the claimed invention were identified according to the following:

Species I: Directed to selecting icons on a display as illustrated in figures 3a-4,

Species II: Directed to selecting a portion of a scene on a display illustrated in figures 5a-8,

Species III: Directed to using a cursor to perform image processing on a captured image illustrated in figure 9,

Species IV: Directed to moving the position of the camera to move a cursor with the effect of highlighting a thumbnail image to select the captured image to input printing instructions as illustrated in figures 10a and 10b.

In response to the restriction requirement Applicant elects the first species (Group I) which corresponds to Claim 1-10 of the subject application without traverse.

Respectfully submitted,

OFFICIAL
